

Technical Specification Guideline

To ensure a high technical quality, we recommend the following settings for file compression.

File specification

- Audio, video and subtitles must be contained in a single file and the file size should not **exceed 5GB**.

Video format

- File format: MP4, MOV, AVI
- Codec: H.264 high profile
- Resolution: 1920x1080 px (854x480 px min.) 16:9 aspect ration
- Bit rate: 5,000 - 10,000 kbit/s
- Frame rate: a constant bitrate and either 24(23.98), 25 or 30 progressive frames per second

Audio format

- Codec: AAC (low complexity)
- Data rate: 128 - 320 Kbit/s
- Sampling rate: 48 kHz

Subtitles

- For subtitled films, the subtitles must be integrated (burned in) into the image.

※ **The file name must not include any special characters or blank spaces.**

Please do not, for example, use any file names like “biff@!%**().mov”.

Please check the following steps to upload your film file smoothly:

- The website for submission is optimized for uploading files in Chrome. (The website is no longer compatible with Internet Explorer.)
- Check your original file for any issues. If possible, try generating a file according to our compression guidelines.
- Disable any browser extensions or ad-blocking software.
- Update your browser to the most recent version.
- End or pause any activities on your network that might be consuming a lot of bandwidth. (Online games, other uploads or downloads, etc.)
